Lead poisoning is a potential health hazard to children. Because this is such a serious problem, the State of New York now recommends that ALL children under the age of six years old be screened for lead poisoning. Like all other regulated child care providers in New York State, the JCC of Syracuse is required by law to request that your child be screened for lead poisoning. If your child has been screened, the JCC needs to have verification on file. If not, please review the lead poisoning information in the next paragraph and plan to have a screening done as soon as possible.

Further information regarding lead poisoning is available through your healthcare provider or the Onondaga County Department of Health Lead Poison Control Center at 315-435-3271. Remember, our goal is to keep your child healthy! This law is NOT intended to keep your child out of day care, but to take that extra step toward ensuring good health!

I have read this information regarding lead poisoning. Parent Initials \_\_\_\_\_

I affirm that the information I have provided on this form is accurate and complete. The JCC of Syracuse reserves the right to remove any child from the program.
